EDITORIAL

A NEW DAWN FOR THE MOVEMENT

Racial comrades .
Welcome to this Blood & Honour No 9 and a new address and editorial staff.
The change comes after internal differences forced Charlie Sargent out of B&H after gross misconduct within the movement, which we shall not go into, but we were given the subscription lists but only some of the bulk orders, so bulk orderers get in touch.

This change is or should prove a landmark within our worldwide B&H movement . Firstly B&H will be written independent and NOT jump on any bandwagon and create lies and gossip about people we should be classing as allies. There is too much negativeness within our movement .So it's time to end it. Our enemy laughs each day we are at each others throats. B&H will be positive from now on . We shall still write political and musical articles as being National Socialists the two go together, but if any political party or grouping carries out encouraging activities we shall report on it .

We warn readers and supporters of Blood & Honour to avoid the old B&H address as it is still not redirecting mail to us and never has, our address is the only B&H contact point.

B&H events have again been very successful featuring prominent bands such as Warlord, Mistreat , People Haters , etc. and so declaring our loyalty and commitment to our scene . Our audiences grow , whether the audience are skins , bikers , casuals who care's , we believe the movement has gone far beyond skins only . The motto is and will remain "all white rock lovers welcome! "
You will notice also that B&H has dropped the swastika logo from the cover to the old fascist symbol of Moseley the thunderbolt , mostly due to the fact several countries have outlawed it and so sales and distributors were very few. If we produce a legal magazine why should we be harassed, lets develop not fall into our enemies hands.
We have a battle to win , we begin here, Support B&H and your supporting all that is good in this violent world.
Until next time.

THE LEGION OF ST. GEORGE
A BRIEF HISTORY.

On Wednesday April 21st, 1943 , the legion of St George were formed from British Servicemen who wished to fight the peril of Bolshevism, from our European homeland. In 1996 the legion was once again awakened to continue it's original aims of ridding our country of alien influence and defending the white way of life.

The legion now comprises of five young volunteers
ROB - STICKS.CHARLIE - GUITAR.SI - STILL DEBATABLE.
EVIL IAN - RHYTHM GUITAR.HOMER - BASS.

Based in and around West London they have so far participated in four campaigns of note, including a performance at the "96 Ian Stuart memorial" and more recently a blinding set alongside the People Haters. The Legion seem to get stronger at each gig and more people crowd to the front of the stage each time, A lot is expected of them in 97.

At the moment no plans for their debut CD are concrete but it does seem to be coming late in 97 .Currently the band have offers to play in various countries abroad but although honoured, would like to get a few more shows under there belt before playing father afield, so they can do themselves and Blood and Honour justice.

They seem to have a very Retro - spective Oi ! sound and are often compared to the dieh ards, but some songs are very diverse from the "norm" in our circles. The song topics range from the patriotic " True sons of St. George, moody " Gods right hand," about convicted homo killer Colin Ireland to the haunting " Shadows of the empire," The band also try to be very topical with subjects affecting us now i.e. " Liberty Taker," about Di and Fergies manipulation of our system and heritage.

The members are all fervent B+H supporters and hopefully will be playing a venue near you soon. Don't miss em!

On an interesting footnote, while discussing the interview with the band, they asked me to make it clear the rumours that they were asked to pose naked for playgirl, are totally unfounded and they didn't know were this rumour started.

PIG KILLER

INTRO.

Finlands youth have been misdirected like youth the world over into believing zog's lies that multi culture is the norm, but stirring in the underground the youth are waking up and battling for a new dawn, Pig killer represent the fire and fight in these viking youth, B+H investigates.....

Q, Could you tell us about the band?
A, We are a young band, all members are under twenty years old.

PENA (me) : Vocals, lyrics
ANDY : Guitars
J. RASMUS : Drums
JON : Bass

Q, Why the name Pig Killer ?
A, Me and a couple of skinheads played in metal bands years ago. The music was complete crap in those days, but we learned to play better, and i met Andy around "DEATH METAL " circles. About two years ago we formed a band.

The older skinheads used to laugh at us and call us "Little Pig Killers".

Q, Who influences you musically + politically?
A, As a national socialist band, the heroes of the movement are always in our hearts, Ian Stuart because of his music, Lincoln Rockwell because of his great thoughts and actions...Matthews, H.J Rowan... of course the people who died for our country in the world war II shouldn't be forgotten! Our main musical influences are mainstream metal bands like "Paradise Lost", "Slayer" and "Pantera" and W.P bands like "Skrewdriver" and "fortress" give a strong R,N'R touch to our otherwise heavy music.

Q, How many gigs have you done and which are the best ?
A, 5 only. The smaller gigs in our hometown are always better, atmosphere in great!

Q, What are your favourite records ?
A, Me and Jon : Rahowa :Cult of the.....
Type O negative : October rust.
Andy & J. Rasmus like more old R.A.C and Oi! Probably Man Fur Man and Hail The New Dawn .

Q, As a band what do you hope to achieve ?
A, Our music is turning quite heavy ,and far more professional odinist- white-power lyrics without cliche' and melodic, strong guitars.

We'd like to play gigs on Britain, in Germany, USA .....

Q, Any closing comments ?
A, Strong Hail ! comrades ! Thanks for the interview my friend !

Defend yourselves from the lower races and beat one S.H.A.R.P for me, if you find time !

A HISTORY OF... BULDOK.

Buldok was founded in the year 1991. It's first members have already had experiences from other Oi! bands . Therefore, we can say that Buldok was formed by the most dedicated and determined musicians, who wanted to carry on paying for skinheads, despite the disintegration of their old bands. The first composition of Buldok's career, the band was as follows : Tom- guitar + vocals, Josef - guitar, Marek - bass and Hugo - drums. At the beginning of Buldok's career, the band was strongly influenced by many foreign WP bands , e.g. Skrewdriver (Ian Stuart R.I.P).

In 1992 , Buldok released its first MC Patriot. "It was a smashing success and the Czech skinheads enthusiasm for Buldok has not vanished ever since. The lyrics of Buldok, in this early period, was mainly about our struggle for survival of Aryans, about our hatred against racially inferior subhuman, etc.

Few months after the release of Patriot", Buldok began to cooperate with Bohemia Hammer Skinheads (B.H.S.) This cooperation resulted in a new album Ohen a led" („Fire and ice") .This album was released both as a MC as well as a CD. The music of Buldok has undergone a major change: the lyrics has become more complicated and it was increasingly related to the Nordic mythology.

Although Ohen a led" was , again , extremely successful, Buldok ended its collaboration with B.H.S and fired its guitar - player. The band was, however, unable to find a suitable replacement and , hence, the band was not active for more than 2 years.

Yet, the crisis was overcome and Buldok was relaunched on 21/5/1996, when it took a part in a concert organized by Blood and Honour - Division Bohemia. Jointly with other Czech bands, Polish band Konkwista 88 and Italian Gesta Bellica, Buldok has re-established its reputation among Czech skinheads.

Following its live performance, Buldok started to work closely with B&H - Division Bohemia and it has released its second CD Screwface". Buldok's music and lyrics on this CD, was further improved and „Screwface" is, without a shadow of doubt, one of the best recent RAC releases.

Our view is shared by countless Czech skinheads, who has bought it and who has acclaimed its new, more radical, texts about anti - Semitism, about our fight against the traitors of our Race, Buldok is not entirely satisfied and thus the band intends to release mew C.D at the beginning of the year 1997. This forthcoming C.D should be some 60 minutes long.

The current composition of Buldok is: Tom - vocal , Jarda - guitar, Marek - bass and Kolin - drums. Buldok is, apart from the crisis during the years 1994-1996, one of the most active RAC bands in the Czech Republic, Buldok has played live more than 30 times and with many well - known foreign bands, e.g. No Remorse, Squadron, Battle zone, Konkwista 88.....We are proud to say that, today, Buldok is the best Czech RAC band !

BLOOD & HONOUR
Lyrics

We're on the streets.
By THORSHAMMER.

Verse 1 We're the front for our land
and we will make a stand
feel pride for our nation
feel live for our land
we are Blood and Honour
marching on the streets
fighting against the red scum
to bring it down the beast.

Chorus Blood and Honour - we're on the streets
Blood and Honour - we will rise again.

Verse 2 Fight against the red scum
and fight the media lies
makes us even stronger
our movement it will rise
we'll fight for our nation
and we will stand up soon
fight the politicians
and the fucking boys in blue

Verse 3 Ian Stuart our leader
he showed us all the way
No surrender, don't give up
that's what he used to say
we will follow up his word
and we will take the sword
we'll always remember him
and we'll stand by his word.

Our freedom is a lie.
By STORM

Intro You who supports democracy and freedom of speech
You'd better start practising what you preach
Give us the same freedom as he ones that we despise
Or are you afraid that we'll expose your systems lies

Verse 1 There ain't no freedom in this country anymore
Our once free land has been sold like a whore
To an evil force that infiltrated our government
They are the real owners, we just pay the rent
Our politicians has sold their souls for cash
Money makes these traitors live multi-racial trash
Easy-bought tools for the beasts evil plans
To exterminate our race and our white homelands

Chorus Our democracy - is hypocrisy
We all know - who hold the ties
They're at the top - they must be stopped
Our so called freedom is a lie.

Verse 2 They brainwash the public by the press and the TV
Fill them with lies, showing them what they should see
they know the public believes what it's told
As long as they own the press, they're in control
But one fine day we'll expose your evil lies
Show the world that you're the enemy we all despise
You've made us suffer, but you'll suffer even more
So expect no mercy when we finally start the war.

AVALON

MIDLANDS FIGHTING MEN MAKING A STAND

Q, Could you tell us a bit about the band, it's formation , members etc. ?

A, Avalon originate from Coventry which is more commonly known as Scum City . We've been through a few changes in the three years we've been going and now feel that bit more confident of the people both in and behind the band. **AVALON ARE BOD(vocals) : GRAHAM (guitar) : SHAG (bass) : JAMES (drums) .**

Q, So far have you found it enjoyable and most importantly advantageous to our cause playing in a white power band ?

" there is more to Avalon than just playing. "

A, So far we've achieved nothing ! Sure we've had some great laughs and made many good friends while playing gigs but there is more to Avalon than just playing . We fully realise our war and intend helping out any we can . As a band we will be happy when we've actually had something released .

Q, Could you tell us about some of your songs ?

A, Bloody hell ! - how many pages have we got ? . We tend to stick to a basis of 8-10 songs for gigs :- OUR HONOUR IS TRUE is Avalons tribute to comrades world wide . WHO'S EDUCATION is about the Marxist / Zionist influence in schools , SHITSTABBER pours scorn at queers , child molesters and perverts , DOGSCOCK is about the number of Black Heroes now playing footy.

Q, The catchy song "C.18 ARE CALLING" is becoming a popular song at gigs . Are Avalon behind C.18 and believe in it's straight forward attack at ZOG policy ?

A, "C.18 are calling" was written a long time ago and always goes down well at gigs . We would like to think that both Avalon and C.18 have moved on to better things . Once the song has been recorded and released then that will be that , we will never ever perform it again . Yes , of course we support C,18˜s direct action against ZOG and all their hooked nosed puppets.

Q, How is the Blood & Honour scene in Coventry and is there an active N/S firm there ?

BLOOD & HONOUR has been a bit quiet up until about a year ago but we are slowly turning the corner . We take now unconvertible people to our gigs each time and each time they enjoy their nights out . We try to take our time in re-educating folk but the fact that they come again to gigs is enough to start with.

Avalon

continued.....

We have a wide spectrum of both Nationalist and National Socialist folk in Coventry and work in unity most of the time . We've had our share of wankers and glory hunters as well but like water they have now found their true level .

Q, How do you view "I S D" and would you be prepared to record with them ?

A, We are sick and tired of tapping I.S.D for a chance of recording but are told that Avalon have to wait . We support them 200 % and our loyalty to them hurts. There comes a time though when we have to consider what is best for the band as we still believe that we have got something to say . You never know, someone might read this interview eh !

A, There was plans for Avalon to record for the Belgian label "PURE IMPACT " but I'm afraid that like so many others present today they have turned out to be nothing more than ignorant moneymen . We had to write a whole album of " politically correct " material for them initially which we felt suppressed our beliefs . We went to great lengths to accommodate this puss but we could see a large turd heading for our heads so we left it . Fuck em anyway . We would rather be left chasing dangled carrots by I.S.D than have anything to do with this bunch . OTHER BANDS PLEASE WATCH OUT FOR THEM.

Q, What gigs have you done and which do you rate as best / worst ?

A, We've done quite a few gigs now and all gigs have been good because the gig was there in the first place . All gigs have been the worst too ! We never seem to get it 100% but we will one day . We think it must have something to do with the new lax licensing hours .

Q, About the gigs !, do you believe that there is enough happening or do you think that more should occur ?

A, It's about right . A concert about every two months would be ideal scattered about the country so everybody is happy . It's down to the people involved to get the concerts organised . Every B&H band wants to play and 5 or 6 quid to see 6 or 7 bands isn't bad by anybody standards .One thing that we would like to see is free admission to gigs for folk from overseas . You could make this up by charging the Brummie lads a bit more ! ! ! ! ! !

Q, In Avalons view is music more important than street activity ?

A, NO WAY ! ; The streets are ours and it's only our own paranoia which has led to the reds getting a foothold on them . We've cleared them off the streets in our City so why not others . Go on get stuck in, there a bunch of cowards anyway . It's good fun too !

Q, Any closing comments ?

THORS HAMMER

Blood & Honour Berlin's No 1 Band.

Q, Can you introduce yourselves to our readers and tell us when you started the band?
A, Oberst , Marian and me started the band in March '94. After a few months we lost our practiising room because of our political views. But we could'nt manage to find a new place to play and in that time Cookie and Chris joined the band.We think that music is an excellent instrument to spread out our views and our message of white power.

" We think that music is an excellent instrument to spread out our views and our message of white power. "

Drums =Oberst , 20yrs
1st guitar = Cookie 20yrs
2nd guitar = Chris 21yrs
Bass guitar = Marian 20yrs
Vocals = Mike 32yr

Q, You played a concert last year with No Remorse, How did you find that concert?
A, The gig was at the 13th of Janrary 1996 and it was our first big gig. We played there with No Remorse and A.D.L 122. It was very well organised by Blood and Honour and 600 skinheads came to that event and they had a very good time. We played a second gig with our comrades of No Remorse at the 18th of May and 500 skinheads were at that gig . It's always nice to play together at gigs with our comrades of No Remorse and I'm sure that they had a good time.

Q,The skinhead scene in England, Holland and France is now pretty dead yet Germany seems to still have thousands of skinheads dispite the strict anti-racist laws, Why do you think this is ?

A, I think we've got the same problems in our countries. The corrupt government want to teach us that the american and the multi-cultural way of life is the only one to live for in East-Germany the youths grew up without the problems of unemployment, drugs, having no money and all them fucking immigrants. After the wall fell down they see all that problems now and they have to live with them.But they realise that there is an alternative and that this is our land which we have to take back. Wherever you go in Germany there is money for the so-called jewish "victims" but there is no money for German families and their children. I think some of the youths are fed up with that all and they know that it's time to stand up and fight back.

" Wherever you go in Germany there is money for the so-called jewish "victims" but there is NO money for German families and their children. "

Q, The Germany Blood and Honour Division seem to be organising some great shows. What's your view on the people leading this group ?
A, They do an exellent job .
